PEER MEDIATION/CONFLICT RESOLUTION

This program is designed to minimize the number of conflicts among high school students. Students will learn how to solve their own problems and obtain skills to resolve any conflicts. Students or teachers can request mediation by completing a form in the Student Assistance Counselor's office.

SUBSTANCE ABUSE POLICY (File Code 5530)

The Board of Education recognizes that a pupil's abuse of harmful substances seriously impedes that pupil's education and threatens the welfare of the entire school community. The Board is committed to the prevention of substance abuse and the rehabilitation of substance abusers by educational means, but will take the necessary and appropriate steps to protect the school community from harm and from exposure to harmful substances. Accordingly, the Board will establish and maintain a comprehensive substance abuse intervention, prevention, and treatment referral program in the schools of this district.

Discipline

1. Any violation of Board rules prohibiting the use, possession and/or distribution of a substance is a serious offense, and the pupil who violates a substance abuse rule will be disciplined accordingly. Repeated violations are more severe offenses and warrant stricter disciplinary measures. Pupils who violate the substance abuse rules will be disciplined as follows:

za. Report the incident to local law enforcement officials.

b. Subject to a hearing as set forth by law and Board policy, the pupil shall immediately be suspended from his/her regular school program. Such pupils will be reported to the Superintendent as prescribed in New Jersey Administrative Code and local administrative notices.

do. Pupils who have been suspended for drug or alcohol use/abuse shall have an evaluation made of their overall academic and social performance. This evaluation will be coordinated by the Substance Awareness Coordinator or other appropriate personnel. The process will include, but not be limited to, the use of a pupil behavior checklist. The results of this evaluation may require a further evaluation by the Child Study Team to determine a pupil's eligibility and need for special correctional programs, additional medical evaluation, referral to a substance abuse assessment agency and/or treatment program, and continued monitoring which may include random urine testing by the school staff for substance use/abuse.

re. A minimum out-of-school suspension of three days shall be imposed unless the pupil's cumulative suspension warrants a longer term or the pupil does not provide the required medical report indicating that he/she is physically and mentally able to return to school, or the Student Assistance Program staff or

other appropriate staff has not completed its assessment, in which case the suspension shall be continued an appropriate number of days but not to exceed the second meeting of the Board of Education, at which time formal action will be taken as to whether the out-of-school suspension should be continued.

mi. Repeat offenders:

(1) Second offense – A minimum of no less than that imposed after prior offense. A meeting with the Superintendent and Building Principal will be required by the pupil and parent(s) or legal guardian(s) and evaluation and treatment at an appropriate health care facility must be investigated as a means of treatment. The cost for such treatment would be the responsibility of the parent(s) or legal guardian(s).

(2) Third offense – Pupil and parent(s) or legal guardian(s) must meet with the Superintendent and Building Principal for a formal hearing regarding implementation of possible expulsion proceeding with the Board of Education. Substance awareness coordinator/guidance counselor, Child Study Team member or other appropriate personnel as designated by the Superintendent may be included.

2. Pupils suspected of possession, **selling or transferring** drugs, drug paraphernalia or alcohol on school property at school-sponsored activities will be disciplined as follows:

za. If the drug is determined by the police or other authorized specialist to be a controlled dangerous substance as defined in PL 1970, Chapter 228, Section 2, the pupil shall immediately be suspended from the regular school program following a hearing set forth by law and Board policy.

b. A minimum suspension of ten days shall be imposed. Such suspensions will be reported to the Superintendent as prescribed by New Jersey Administrative Code and local Board policies.

do. Pupils who have no previous record of alcohol or drug abuse may be readmitted to school at the discretion of the Principal following an in-depth conference with the pupil's parent(s) or legal guardian(s) as herein described. Such a conference may require an evaluation by the Child Study Team if the pupil has, in the opinion of the Principal, a history of behavior and/or educational problems. Such a conference may include school health, special services personnel and guidance counselors, and shall include a discussion of

the danger of alcohol and drug abuse and the availability of local agencies which deal with assessment and/or referral.

re. Second offense by a pupil will result in the pupil and parent(s) or legal guardian(s) being required to meet with the Board for possible expulsion hearing according to policy.

This detention will generally be served in the teacher's classroom or designated area beginning at 2:50 pm on the day following the infraction. One

day's notice is considered sufficient time. It is the student's responsibility to make the necessary arrangements with other teachers if conflicts occur. It is also the student's responsibility to make arrangements for transportation. Students who are assigned to detention are expected to serve as scheduled and they are to be prepared to complete work. Failure to attend a teacher detention will result in a Friday ASAP Detention.

2. Detention – Friday (AFTER SCHOOL ASSISTANCE PROGRAM)

- a. At 2:45 pm, the students will report to their designated classrooms to serve the detention.
- b. The After School Assistance Program (ASAP) will run from 2:55 pm – 5:00 pm
- c. Students who are scheduled for ASAP should bring all necessary schoolwork, books, pens, pencils and enough work to keep busy the entire time to their 8th period class on that day. Students will not be permitted to go to their lockers to get work for the detention period. Students who do not have work will be given worksheets to help prepare for upcoming standardized tests.
- d. No food or drink is allowed. As a rule, students will be permitted to use restrooms during the five (5) minute break to be scheduled at the end of the first hour of the session.

A parent looking to reschedule a Friday detention for their son/daughter must contact the assistant principal before the detention is to be served. Verification of the reason for the request must be provided (ie doctor's note, legal document). The administration reserves the right to deny requests. Friday detentions will not be changed for students who are scheduled to work or involved in sporting and extracurricular events.

3. SUSPENSION

For serious infractions, students are suspended from school for a specific number of days as determined by policy or administration. Parents will be contacted by telephone and/or notified by mail.

Suspended students, upon reinstatement to school, will have the obligation of making up the detention period, which may have been assigned to them prior to the time of suspension.

Suspended students will have the opportunity to make up all work missed while suspended. Time allowed will be equal to the amount of time suspended.

Cheating is defined as the representation of someone else's work as one's own, the use of prepared work in any form when none is permitted, or cooperative efforts when only individual effort is required (ie copying homework, sharing answers on tests or quizzes, plagiarizing papers or reports, etc.). Any form of cheating to any extent is wrong and inexcusable. This improper conduct is a disservice to one's own educational progress as well as the progress of others. The classroom teacher is the arbiter as to whether or not cheating has occurred. Incidents of plagiarism must be judged by the teacher in light of what the teacher has taught and what the teacher expects each student to know. The teacher will confiscate the materials and report all instances of cheating to the appropriate supervisor/administrator. Except for emergencies, students may not leave the classroom the first and last five minutes of each class period.

***HEALTH SERVICES**

The nurse's hours are 8:00 am to 3:15 pm
Telephone: 201-796-8700 (Ext. 2960)

The school nurse is located in the Nurse's Suite along the main corridor. It is open throughout the school day for problems related to health or health records. Students becoming ill or injured during the school day must notify their classroom teacher and obtain a pass to go to the nurse's office. According to state regulations, treatment by the school nurse is limited to first aid care for injuries occurring at school. Injuries incurred other than at school must be cared for at home. The school medical inspector approves the school's first aid procedures, and they are reviewed and approved by the board of education.

Whenever it is determined that a student's condition warrants leaving school, a parent, guardian or designated adult will be notified. The student must report to the attendance office to sign out of school. If the student should return to school, s/he must report to the attendance office upon his/her return. If the nurse is not available, the student should report to the main office if there is an emergency.

Crutches/Wheelchair

Any student needing the use of crutches/wheelchair within the school building must have a doctor's note stating their use. The doctor's note must be given to the school nurse when the student arrives to school on the first day of using the crutches/wheelchair. The school nurse will review the procedures with the student to navigate within the school building in a safe manner.

Medication:

Any student who is required to take medicine during regular school hours must comply with the following school regulations:

1. Pupils requiring medication at school must have a written statement from the family physician, which identifies the type, dosage, time interval, purpose and side effects of the medication. Written permission of the parent/guardian must also accompany the medication.
2. Non-prescription drugs are not to be administered unless written permission is received from your physician, which identifies the type, dosage, time interval, purpose, and side effects of the medication. Written permission by the parent/guardian must also

- accompany the medication. This includes cough drops, lozenges, cold tablets, cough medications, and aspirin.
3. Medication must be given to the school nurse in the original container, which has been properly labeled by the pharmacist or physician.
 4. Prescribed inhalers may be carried by the student, only if a note is supplied by the physician specifically indicating that the student may self-medicate. This note must be submitted to the nurse.

The frequency and amount changes from class to class; however, students will receive some type of homework each day. Along with written work, homework will include studying and review.

Students are responsible for the completion of homework and its return. Parents can be helpful by providing a quiet time and a quiet area at home for its completion.

Each student is responsible for making up all class and homework assignments missed when absent. Time allowed to make up missed work is equal to the amount of time absent.

***INSURANCE**

The Elmwood Park Board of Education has purchased, through the Bollinger Company of Montclair, New Jersey, a \$6,000,000 full-excess basis under this program while in school or participating in school-sponsored activities. There is no cost to parents for this coverage. Although this coverage is very broad, there are some restrictions, limitations, and exclusions in the policy.

In the event that medical expenses are incurred as a result of any accidental injury, the student accident policy provides “excess” coverage. In other words, the policy covers the excess over any other collectible insurance that may be in effect. The primary purpose is to pay only that portion of the medical expenses not covered by personal or group insurance that already covers the student. If there is no insurance in force, or if other insurance does not offer coverage for a particular accident, then the policy will pay benefits on a primary basis.

Claim forms may be obtained in the school office. Injuries must be reported to Bollinger within ninety (90) days of the date of the injury. It is important that the claims procedure, which appears on the claim form, is followed.

Extended 24-hour student accident insurance, life insurance, and dental accident insurance may be purchased by parents directly from Bollinger. A brochure will be sent home during September explaining your options and how to enroll, or you can obtain one in the school office.

INTERVENTION & REFERRAL SERVICES (I&RS)

The New Jersey State Board of Education has established that the primary mission of schools is to enhance student achievement of high academic standards in safe and disciplined learning environments. The effectiveness of public education in fulfilling this mission depends largely upon the capacity of school systems to respond to the diverse educational needs of students. The educational mission is made more complex by the increased incidence;

prevalence and intensity of problems students bring to schools. The types of at-risk behaviors students manifest while in school include not concentrating or focusing on learning, not completing assignments, not achieving to demonstrated skill level or tested potential, declining or failing grades, cheating, absenteeism, tardiness, falling asleep, inability to stay in seat or work within structure,

decreased participation, self-defeating responses to peer pressure, deteriorating personal appearance and hygiene, erratic behavior, loss of affect, acting out, fighting, defying authority, violating rules and dropping out of school. In response to these circumstances and the attendant needs of students, Memorial Middle School utilizes a program of intervention and referral services (I&RS) to assist in the educational improvement of the individual and school community.

Per the provisions of NJAC 6A:16-7.2(a), the required functions of the coordinated system of intervention and referral services are as follows:

1. Identify learning, behavior and health difficulties of students;
2. Collect thorough information on the identified learning, behavior and health difficulties;
3. Develop and implement action plans which provide for appropriate school or community interventions or referrals to school and community resources, based on the collected data and desired outcomes for the identified learning, behavior and health difficulties;
4. Provide support, guidance, and professional development to school staff who identify learning, behavior and health difficulties;
5. Provide support, guidance, and professional development to school staff who participate in each building's system for planning and providing intervention and referral services;
6. Actively involve parents or guardians in the development and implementation of intervention and referral services action plans;
7. Coordinate the access to and delivery of school resources and services for achieving the outcomes identified in the intervention and referral services action plans;
8. Coordinate the services of community-based social and health provider agencies and other community resources for achieving the outcomes identified in the intervention and referral services action plans;

9. Maintain records of all requests for assistance and all intervention and referral services action plans, according to the requirements of 34 CFR Part 98, 34 CFR Part 99, 42 CFR Part II, NJSA 18A:40A-7.1, NJAC 6A:16-3.2, and NJAC 6:3-2.1;
10. Review and assess the effectiveness of the provisions of each intervention and referral services action plan in achieving the outcomes identified in each action plan and modify each action plan to achieve the outcomes, as appropriate; and
11. At a minimum, annually review the intervention and referral services action plans and the actions taken as a result of the building's system of intervention and referral services and make recommendations to the principal for improving school programs and services, as appropriate.

For questions concerning the I&RS process, please contact the office of Special Services (201-796-8700 ext. 2944) or the middle school guidance department (201-796-8700 ext. 2938).

Candidacy begins by meeting the scholarship criterion. Academically eligible students must complete an application detailing their involvement in school and community activities, leadership experiences, and service. A panel of five faculty members will then review these applications, in addition to students'

disciplinary records and faculty feedback. Students who are not selected for membership in the seventh grade may be considered for induction in eighth grade. NJHS members are expected to maintain high standards in scholarship, character, leadership, citizenship, and service. The group will plan, develop, and implement school-based and or community-based service projects throughout the year.

It is the policy of the board of education to take positive action through education, treatment, evaluation-assessment, discipline, parental involvement

and police referral to prevent and intervene in incidents involving the possession, sale, distribution, use and/or abuse of dangerous substances (alcohol, controlled substances).

1. Suspected use/possession – Students suspected of using, possessing, abusing, or under the influence of dangerous substances will be subject to a complete assessment of his/her physical and/or mental condition.

2. Testing – The administration may request of a student's parent or guardian that an alcohol or drug screening through urinalysis of the student be conducted. The parent/guardian will be telephoned by the building principal and/or his/her designee to state that because there is strong suspicion of alcohol and/or controlled dangerous substance abuse, the student within the next two hours must provide a urine sample for a full spectrum analysis and receive a physical examination either from a physician of the parent/guardian's choice and at the parent/guardian's expense or the school will arrange to have these done at the Fair Lawn Attention Center or at an appropriate substitute location approved by the school district immediately and at no expense to the parent/guardian. The parent/guardian should arrange to report to the school building immediately to accompany the student to the location of the test and examination. If neither parent nor guardian can be reached by telephone, then this fact will be noted for the record and the student will be driven to the Fair Lawn Attention Center, 15-01 Broadway, Fair Lawn, New Jersey 07410 or to an appropriate substitute location approved by the school district, by a school administrator accompanied by the school nurse or other member of the faculty. If the student is belligerent or resistant, than the Elmwood Park Police Department will be contacted to assist with the student's transportation. A written report of the medical examination and screening shall be furnished to the parent/guardian of the pupil, principal, and superintendent by the examining physician within a twenty-four hour period. If the report is not submitted within twenty-four hours, the pupil shall be allowed to return to school until such time as a positive diagnosis of alcohol or other drug use is received.

NOTE: If a parent/guardian and/or student refuses to comply with the requirements for screening set forth by the board of education and administration, then the student will be judged to have made an admission and will be considered as being positive for alcohol and/or a controlled dangerous substance and will be immediately suspended out-of-school.

3. If the requested report shows that the student was under the influence of drugs or alcohol, the principal or his designee shall take the following steps:
- a. Report the incident to the local law enforcement officials (School Resource Officer).
 - b. Subject to a hearing as set forth by the law and board policy, the pupil shall immediately be suspended from his/her regular school program. Such pupils will be reported to the superintendent as prescribed in New Jersey Administrative Code and local administrative notices.
 - c. Students who have been suspended for drug or alcohol use/abuse shall have an evaluation made of their overall academic and social performance.
 - d. A minimum out-of-school suspension of three (3) days shall be imposed unless the pupil's cumulative suspension warrants a longer term or the student does not provide the required medical report indicating that he or she is physically and mentally able to return to school, or the Student Assistance Program staff or other appropriate staff has not completed its assessment, in which case the suspension shall be continued an appropriate number of days but not to exceed the second meeting of the board of education, at which time formal action will be taken as to whether the out-of-school suspension should be continued.
